Introduction to Programming [**Task on Loop**]

Department of Computer Science, AIUB

1. **Write a program that take two integer numbers and display the sum of even numbers between these two input numbers.**
   First Number: 3
   Second Number: 10
   Sum of Even numbers between 3 and 10 is: 18

2. **Calculate the Factorial of a number.**
Sample Output:
Your input to calculate factorial: 5
Factorial of 5 is 120

3. **Find the Fibonacci series of N terms.**
Sample Output:
Your input is: 9
Fibonacci Series: 0 1 1 2 3 5 8 13 21
